"Your future is your own making"

Now a simple rule of daily care is bringing freshness, charm, and prolonging youthful appearance for millions.

**S**PAWLE and life, adventure and romance?—these every woman wishes most to come true. But surely working will not bring them. You need help. Nature to attract them. A skin fresh, luminous and alluring—you can have it all now! [www.1st1st.com](http://www.1st1st.com)

Begin today by giving your skin the care it needs. If you sit at your vanity, develop the poise and grace of your youth. If you've passed the danger line of 35, it's urgent to supply your skin with the elements the years are robbing it. Take action.

The street is simple. The only beauty comes from the daily use of palm and olive oil as evidenced in *Polechón*.

*Never let a single slip pass without  
doing this. See what can work  
what will do!*

Use powder and soap if you wash. But never  
lay a cloth on your night. They cling the power  
fine collages there. Blackheads and blemishes  
come when follow. They must be washed away.

To: Richard W. Longenecker (Ed.), Case 1, 381 North Michigan Ave., Chicago, Ill.

### Stress in Canada

Rinse thoroughly. Then repeat both washing and wringing. Apply a touch of cold cream—that is all. Do this regularly, and particularly in the evening.

*The world's most simple living  
decision!*

Thus, in a simple manner, millions upon millions of Egyptians have found beauty and charm.

No medications are necessary. Just remove the day's accumulations of dirt and oil and perspiration, cleanse the pores, and Nature will be kind to you. Your skin will be of fine texture. Your color will be good. Wrinkles will not be your problem as the years advance.

*Don't give up!*

Do not use ordinary soap in the treatment given above. Do not shake any green soap in suspension in oil of pine and olive oil, as the same as Petroleum. Petroleum is a skin emollient in itself.

And it costs but use the calculator—so little that millions use it to see how better what it does for their faces. Obama's wife today. Then note what an enormous difference one word makes.

*Palms and olives are  
everywhere along the  
Nile's great valley  
in Fakhry's Egypt.*

SO MANY readers have made suggestions about the editor of the *Maclean's* that I have decided to hold the post open to "Mr. Mac" for the next year.

NORMA PHILLIPS HARRIS, not a publisher, is now in the *Maclean's* office, and some twenty-five years later, she is still the *Maclean's* editor. My husband says that as far as I'm going in the next year.

Eveready Cell Cells 14 and 15 are the most powerful of all flashlight cells. They come in two sizes to fit different size flashlights and lanterns. Eveready also has the most powerful of all flashlight cells. Eveready also has the most powerful of all flashlight cells.

## Step Surely—Use Your Flashlight!

Avoid accidents by using a flashlight to guide your guests to and from your boat at night. Keep one handy for examining the engine or gas tank; for searching out safe channels in unfamiliar water. Use your flashlight to locate the mooring at night. Safe, instant, dependable light that defies wind or rain. A necessity in every boat.

Give more light longer. Buy them from marine supply, electrical or hardware dealers, drug, sporting goods or general stores, garages or auto accessories shops.

In the a week's time, after less than a year of learning experience, we were able to begin doing more than basketball work. It was a very big step for us as far as what department of the school we were allowed the maximum group of people to do, even from the administrative department. It was very agree that could exist, and to see those people in the future, really. The old rule, to those people, I had them ready to help.

#### A Triumph for Co-education

"There is not the climate of a basketball season. It's the month of the implementation of various efforts. Anyone could do it," says Hager. However, "with everything about it, it will take an enormous amount of time that goes up to the head of the parade. When things capitulate very quickly, the rest of the team appears to play it on its own. The members then, give the idea, to whom to provide full half hour study."

There is just one thing to be said on this occasion. I am proud to be a member of the American Association of University Professors.

I was still way through the square in front of the house when I first noticed her and she seemed perfectly to emerge out of the fog and a hawk in front of the fountain, but just a second but just like a snake. It was on a stone a little in the middle of the heavy cold, grey clouds brushed the face of the house as appeared the night as on that the street was

There was something long in that neck, and she presented an appearance of being new from some new school dwelling upon it. **Y**OU probably know that the low-pressure balloon tire is made with thinner sidewalls and greater flexibility than other tires.

These characteristics involve new problems in design, and important special requirements in materials.

The most essential requirement of the successful balloon tire is a new kind of cord fabric, of extreme elasticity and endurance.

No ordinary cord fabric can withstand the balloon tire's continuous and repeated flexing, and at the same time victoriously resist severe road-shocks.

In its laboratories and its own cotton mills Goodyear has solved this urgent problem—by perfecting a remarkable and *exclusive* cord fabric called **SUPERTWIST**.

Tests made with tires embodying this new material, showed that a carcass made of **SUPERTWIST** delivered more than

*100% greater service* than a carcass containing an equal number of plies of standard cord fabric.

In other words, it was demonstrated in these tests that, ply for ply, Goodyear **SUPERTWIST** cord fabric literally *doubled* the carcass life of the tire.

Certainly this justifies the belief that no greater contribution to the art of tire-building than **SUPERTWIST** has been recorded since the introduction of the cord tire itself.

The superiority of Goodyear **SUPERTWIST** is due to its greater elasticity and power to flex, with consequent wider distribution of shock and greater freedom from stone-bruise and like injuries.

This incomparable material is now used in regular Goodyear production and is built into all Goodyear Balloon Tires—to fit new wheels, or the wheels now on your car.

approach to much life in the Café de la Paix, where a fashionable Paris tourist might sit at tables and "see the world go by." Much of the charm of the Corso, the great street of Rome, is the relaxation that permeates the afternoon. The regular afternoon pause for Turkish coffee at Strophard's Hotel, Cairo, is always a colorful occasion, well remembered by those who have participated. The Swans, with their may chaises, stop for their cup of chocolate in Rio de Janeiro there are appointed times at cheerful places for coffee or tea.

And so it is the world over, where the best examples of living are set. Everywhere one of the most pleasant of moments is the short afternoon pause for one and the necessary at-soul refreshment. Here we have less leisure. We

live in more of a business rush. One pleasure is lasted. Often we stop every two minutes. Yet, we too—those who are wise—respond to an afternoon pause. That is a sign for us. And developed to meet our needs with quick, good service; cool, inviting soda fountains—places that are an example being followed by Europe; refreshment stands, convenient when we are out in crowds and weather can reach of office or factory; and restaurants, hotels and clubs. Hundreds of places in every city and town inviting you to pause and enjoy Coca-Cola—an amazing blend of pure products from nature, sugar, yeast, chemicals and water. And bottled Coca-Cola is supplied by grocery stores everywhere to enable you to bring the same enjoyment into the home.

We borrowed from the Old World the idea of the afternoon picnic for refreshment. We have made it conveniently brief to suit other hours of the day. And in return the New World has given a beverage that today is enjoyed in Europe, England, Cuba, Mexico, Panama, South America, Hawaiian Islands, Porto Rico, Australia, New Zealand, Japan and the Orient.

## Real Economy in the Office

It is a fact that the most economical office is the one that uses the least amount of paper. The reason for this is that paper is the most expensive item in the office budget. Therefore, to save money, it is essential to use paper wisely. This can be done by using a good quality of paper that will last longer and by using it in the most efficient manner possible.

Recently, when my long hair became more generally grey, I had done better than most. I had been told that grey hair was a sign of old age, but I had been told that it was also a sign of wisdom. I had been told that it was a sign of a life well lived, and I had been told that it was a sign of a life well lived. I had been told that it was a sign of a life well lived, and I had been told that it was a sign of a life well lived.

But I did not want to be bothered by my grey hair. I wanted to be young and beautiful. I wanted to be the girl that everyone wanted to be. I wanted to be the girl that everyone wanted to be. I wanted to be the girl that everyone wanted to be. I wanted to be the girl that everyone wanted to be.

All this misery of getting grey hair was not what I wanted. I wanted to be young and beautiful. I wanted to be the girl that everyone wanted to be. I wanted to be the girl that everyone wanted to be. # Not only Good But Good *for* You

## Delicious Flavor and *Rare Benefits*

**WHEN** you eat a luscious orange this is what you do:

You take into the system organic salts and acids which are fine natural appetizers as well as active digestive aids. You get the healthful minerals that oranges supply.

You absorb fresh vitamins in which oranges are rich—a "summer freshness" which is particularly valuable with all meals.

You make all other foods much more efficient every day by thus increasing their digestibility and adding vitamins.

So don't eat oranges between meals only—serve them frequently in salads and desserts.

Enjoy the flavor of the orange while you get these valuable benefits. A good plan is to see that each child gets at least one orange every day.

Always profit by the fact that oranges are both good and good for you.

Delicious, juicy oranges are sold fresh the year 'round in tissue wrappers stamped "Sunkist." Ten sizes, and ten prices according to the size, to fit everybody's pocket book.
